## **N2POWER ANNOUNCES TWO NEW 5 VOLT DC-DC POWER SUPPLY MODELS**

### ***Expressly Designed for OEM Applications***

**SIMI VALLEY, Calif., December 1, 2010** — N2Power, a Qualstar Company (NASDAQ: QBAK), today announced expansion to its families of DC-DC power supplies. The new XL125-05DC and XL160-05DC 5 volt models are designed specifically for OEM applications where small size, high efficiency and reliability are critical.

The new 5 volt DC-DC power supplies were developed to meet the particular requirements of international telecom systems manufacturers, and complement the AC-DC versions of the same families.

Up to 87% power efficiency is achieved utilizing N2Power's industry-leading "green" packaging technology. These unique designs leave the heat in the load, not in the supply, reducing power consumption, improving reliability and lowering cost of ownership.

"Our OEM customers want the same advantages of small footprint, power efficiency, value and quality that they gained buying our AC-DC power supplies in their DC-DC requirements," said Randy Johnson, Vice President and General Manager of N2Power. "They requested DC input versions of the 5 volt AC designs that they have been purchasing."

The new models join the XL125 DC-DC and XL160 DC-DC families introduced in 2009. These DC-DC product lines offer designers an extensive range of capabilities. Thirty-two multi-output models offer outputs from 5 volts to 56 volts. N2Power supplies meet a full range of international standards, including RoHS, UL, CE Mark, DEMKO and FCC Class B.

N2Power's products are sold worldwide through its network of representatives and distributors. Sample units are available. Call 805-583-7744 or visit [www.n2power.com](http://www.n2power.com) for further information.

### **About Qualstar Corporation**

Qualstar manufactures automated tape libraries and power supplies. Its products are known throughout the world for energy efficiency and rugged, *Simply Reliable* designs yielding years of trouble-free operation. Qualstar tape libraries are sold, installed and supported worldwide to backup, archive and protect data from incidental and catastrophic loss. Its N2Power brand switching power supplies are sold worldwide to OEM manufacturers who require both industry-leading high power efficiency and very small size for their products. Qualstar Corporation is publicly traded on the NASDAQ National Market under the symbol QBAK. More information is available at [www.qualstar.com](http://www.qualstar.com), [www.n2power.com](http://www.n2power.com) or by phone at 805-583-7744.

### **Forward-Looking Statements**

Statements concerning the future business, operating results and financial condition of the Company are “forward-looking” statements as defined in the Private Securities Litigation Reform Act of 1995. Such statements are based upon management’s current expectations and are subject to a number of uncertainties that could cause actual performance and results to differ materially from the results discussed in the forward-looking statements. Factors that could affect the Company’s actual results include the Company’s ability to increase sales of its tape libraries; rescheduling or cancellation of customer orders; unexpected shortages of critical components; unexpected product design or quality problems; and, adverse changes in market demand for tape libraries or other Qualstar products. The Company undertakes no obligation to publicly update any forward-looking statements whether as a result of new information, future events or otherwise. Further information on these and other potential factors that could affect the Company’s financial results or condition are included in Qualstar’s filings with the Securities and Exchange Commission. In particular, reference is made to the “Risk Factors” section of the Company’s Annual Report on Form 10-K for the fiscal year ended June 30, 2010, and to the “Management’s Discussion and Analysis of Financial Condition and Results of Operations” sections of its Form 10-K and its most recent Quarterly Report on Form 10-Q.
