N2Power XL275 AC-DC Enclosed High Efficiency Power Supplies

HIGHLIGHTS
• 275 W AC-DC
• High efficiency (up to 91%)
• Available Models: 12 V – 56 V
• Universal AC Input
• Active PFC (90 – 264 VAC)
• Integral Cooling Fan
• 5 V Standby Output
• IEC Inlet Filter
• On/Off Switch
• Inrush Current Limiter

REPEATABLE QUALITY
We use advanced PCB technology to and best performance in the industry. Our packaging design incorporates SMT technology to automate processes, ensure reliability, and reduce cost. Each power supply undergoes a complete functional test and a multi-hour burn-in to insure that every unit meets our stringent quality requirements. Detailed statistical production records are maintained and rigid quality and AVL control insures the highest quality product available.

PFC SAVES ENERGY
Many countries already require Power Factor Corrected (PFC) power supplies, which lessen loads at generating stations. The XL275 enclosed power supply incorporates a patented active PFC technology with universal input to provide superior efficiency. Comparisons show that our supplies can reduce consumption up to 50%.

OUTPUTS
The XL275 can be customized to deliver a wide range of outputs from 12 V to 56 V to suit OEM requirements. Contact us regarding custom and modified standard supplies for unique applications.

N2Power leads the power density race with its high efficiency XL275 AC-DC enclosed power supplies, which provide up to 91% efficiency. In fact, comparisons of efficiencies show that our supplies can reduce energy losses by up to 50%. Our advanced technology yields a very small footprint and offers the highest power density in its class. This unique design also generates less wasted heat—reducing the need for forced air cooling, decreasing AC power consumption, increasing reliability, and maximizing its economy of operation. By building our power supplies with a focus on maximizing efficiency, we can provide our valued customers with reduced energy costs, longer product lifespans, and a greater return on their investment.
